

## SSL Report: connect.accu-dose.com (64.19.194.49)

Assessed on: Mon, 28 Mar 2022 12:06:21 UTC | **HIDDEN** | [Clear cache](#)

### Summary

Overall Rating

Visit our [documentation page](#) for more information, configuration guides, and books. Known issues are documented [here](#).

This server supports TLS 1.3.

HTTP Strict Transport Security (HSTS) with long duration deployed on this server. [MORE INFO »](#)

### Server Uptime & Reliability

- 99.9% Server Uptime with full redundancy across all core services
- Scaling Systems in place to preserve reliability and low-latency performance
- Daily Onsite and Offsite Backups ensure complete disaster recovery and data continuity

### Data Security

- End-to-End Encryption using industry-standard SSL protocols for all data transmissions
- Regular Security Patches & System Updates to maintain secure operations and guard against emerging threats
- Firewall & Intrusion Detection Systems in place to proactively monitor and block unauthorized access

### Platform Features

- Real-Time Monitoring and full remote visibility
- Data Logging & Historical Reporting
- Custom Alerts via SMS or email
- Intuitive, Cloud-Based Dashboard accessible from anywhere
- No third-party software required

### Physical Server Facility Security

- 24/7 On-Site Security Personnel for constant facility monitoring
- Biometric Access Control including fingerprint and retinal scans
- Mantraps and multi-step authentication for secure entry
- Surveillance Cameras covering all sensitive zones, archived for forensic use
- PIN-Locked Server Racks to prevent physical tampering
- Redundant Power Systems & Fire Suppression ensure continued operation and hardware protection
